

## Health and safety procedures

### **Short trips, outings and excursions**

#### **Planning and preparation**

- Outings have a purpose with specific learning and development outcomes.
- If staff are 'borrowed' from another area to maintain ratios on an outing they are fully briefed about the children they are accompanying.
- The excursion does not go ahead if concerns are raised about its viability at any point.
- Parents are informed of an outing and staff check that consent forms on children's registration were signed.
- A minimum of two staff accompany children on outings.
- We take a register with all attending children on.
- Children are specifically allocated to each member of staff/volunteer; they are responsible for supervising their designated children for the duration of the excursion.
- Parents on outings are responsible for their own children only.
- Parents who have undergone vetting as volunteers may be included in the ratio.
- A mobile phone belonging to the setting, and small first aid kit is taken out.
- Staff make sure they have water, plastic cups, spare nappies/change of clothes and wet wipes for the children going out appropriate to the length of time they are out for.
- Sun cream is applied as needed and children are clothed appropriately
- Children wear 'high viz' vests.
- Staff have emergency contacts, medication and equipment needed for children.

#### **Risk assessment**

- Risk assessment is completed prior to the outing and signed off by the setting manager and all staff taking part. Existing risk assessments are reviewed/amended as required.
- Children with specific needs have a separate risk assessment if necessary.

#### **Outing venue (larger outings)**

- Venues used regularly are 'risk assessed' and an initial pre-visit is made to look at the health and safety aspects. If pre-visits cannot be made, risk assessment is achieved by calling the venue and asking for their risk assessment.
